

General Instructions:

The drawer insert you have acquired is designed for use in a Flammkraft Block M and can be placed in both drawers in the base.

Wash the stainless steel containers before the first use to remove any potential production residues.

All parts are made of stainless steel and are dishwasher safe.

Thanks to the adjustable dividers, the size of the compartments in the right area can be varied and the insert can also be used for optional containers.

Usage:

1. Open the base of Block M by pulling out the front drawer.
2. Pull out the desired stainless steel drawer completely.
3. Insert the drawer insert from the top into the pulled-out drawer.
(See Fig. 1)
4. Ensure, when inserting, that the handle plate at the front aligns flush with the corresponding plate of the drawer (see Fig. 2).

Fig. 1

- a) Lid for stainless steel containers (Gastro-Norm: 1x 2/3, 1x 1/3, 2x 1/6)
- b) Stainless steel containers (Gastro-Norm: 1x 2/3, 1x 1/3, 2x 1/6)
- c) Drawer insert
- d) Drawer Block M (not included in the delivery)
